

Ideal Replacement For White Lead

*Looks — Feels and
Performs Like White
Lead, But . . . Contains
No White Lead*

Use for Hand Broaching, Steady Rests, Chuck Lubrication, Die Sets, Press Fits, Bushings.

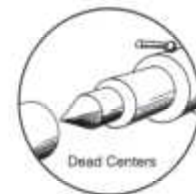

- No Sulfur
- No Chlorine
- No 111 Trichloroethane
- Stays Put
- Won't Dry Out or Evaporate
- Withstands Extreme Pressure

Ideal for application where non-drip and non-splash are essential. EEZ Insted-A-Led is a heavy duty white paste that adheres tenaciously to the work. Won't rub off, dry out, evaporate or force out under pressure.
